HAVE YOUR SAY – SEEKING INPUT TO IDENTIFY THE NEEDS OF OUR SCHOOL COMMUNITY

The P&C is seeking input from our school community into the process for recruiting a new school principal.

A community representative will be chosen to participate in the selection panel at the P&C meeting on 26 October. The representative's role is to bring our community perspective to the selection process along with perspectives of other panel members.

We want to make sure that the panel representative has a good sense of what our school community's needs are and how the school principal can help meet these needs.

To help with this, the P&C invites you to submit a couple of sentences setting out the need you would most like addressed in our school and the qualities/skills a principal would need to achieve it.

The short timeframe for input to the recruitment process means that we will need to have an understanding of the community's views in time to report back at the P&C meeting next week.

Please email hpspc01@gmail.com by 3pm on Wednesday 26 October with your comments or put a note in the P&C pigeonhole. The P&C executive members will make an effort to be available in the playground before and after school next week if you would like to ask any questions or discuss this further.

Thanks for your participation.
Your P&C

The need I would most like addressed in our school is:

The qualities a school principal would need to have to deliver this outcome are:
